

# Parag Parikh Arbitrage Fund

Growth Direct Plan | AMFI Code: INF879O01225

LOW RISK

HYBRID: ARBITRAGE

DIRECT PLAN

## Investment Objective

To generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and by investing the balance in debt and money market instruments.

|                           |                 |               |                |
|---------------------------|-----------------|---------------|----------------|
| LATEST NAV (JUN 05, 2026) | FUND SIZE (AUM) | EXPENSE RATIO | MIN INVESTMENT |
| ₹11.9183                  | ₹2,369.71 Cr    | 0.19%         | ₹1,000         |

## Historical Performance & Returns

| Period                     | Fund Absolute Returns | Category Average | Rank in Category |
|----------------------------|-----------------------|------------------|------------------|
| 3 Months                   | +1.16%                | -                | 16               |
| 6 Months                   | +3.00%                | -                | 23               |
| 1 Year                     | +6.20%                | +6.10%           | 25               |
| Since Inception (Oct 2023) | +19.20% (Absolute)    | -                | -                |

## Fee Structure & Tax Guidelines

|               |                                                                                                                                                                                                                                                                                                                                                                   |
|---------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Exit Load     | 0.25% if redeemed/switched-out within 30 days from the date of allotment. Nil after 30 days.                                                                                                                                                                                                                                                                      |
| Turnover Rate | 7.28% (Low portfolio churning matching low-risk profile)                                                                                                                                                                                                                                                                                                          |
| Taxation      | <div>As per standard Equity/Arbitrage Mutual Fund guidelines:</div> <ul style="list-style-type: none"><li>• <b>Short Term Capital Gains (STCG):</b> Taxed at 20% if units are sold within 1 year.</li><li>• <b>Long Term Capital Gains (LTCG):</b> Gains up to ₹1.25 Lakh per financial year are exempt.
