Investment Objective & Strategy

The primary investment objective of the scheme is to generate regular income through investments predominantly in high-grade debt and money market instruments. Additionally, the scheme allocates a designated portion (10% to 25%) to equities and equity-related instruments to target long-term capital appreciation and build an active hedge against long-term inflation.

Key Investment Attributes

- Flexible Fixed Income Mandate:** Includes both accrual and active duration positioning across Sovereign, State Government, PSU, and corporate corporate bonds across all structural maturities.
- Equities with Margin of Safety:** Focuses heavily on high cash-flow businesses with strong records of regular corporate actions (dividend distributions and buybacks).
- REITs & InvITs Allocation:** Utilized actively to combat inflation pressures via built-in annual rental escalations.
