

How do I switch my regular mutual funds to direct?

Modified on: Thu, 14 Mar, 2024 at 5:33 PM

To move completely to direct plans, we recommend the following steps (the entire process is online) –

1/ Import your mutual fund portfolio

- Follow the steps on the [Import Portfolio tab \(https://kuvera.in/import\)](https://kuvera.in/import). We read and process your Consolidated Account Statement in real time and you can start placing orders in the same folios as your current regular and Direct plans immediately.

2/ Move your SIPs from the current platform to ours

- START your direct plan SIPs in the same folio as your current plans and then STOP your SIPs with other platforms.
- We will ask you to set up a mandate as part of the SIP setup process.

3/ Switch your Regular plan units to Direct plans

- Go to the "Portfolio" page and click on "Manage Funds"
- Choose "Switch" to start switching your regular plans to direct plans
